Subject: RSVP Request - May 18, ISWG Workshop

Hello Induced Seismicity Workgroup Members and Advisors... we have further solidified plans for the ½ day May 18, 2015 workshop for the rollout of Revision 2.0 of the primer *"Induced Seismicity by Injection Associated with Oil & Gas Development: A Primer on Technical & Regulatory Considerations Informing Risk Management and Mitigation"*. (See detail below)

PLEASE RSVP with your May 18th plans... the current list is as follows...

Will Attend the May 18 workshop in SLC

Brad Bacon
Norm Warpinski
Linda McDonald
Rex Buchanan
Rick Simmers
Leslie Savage

Will Call In to the May 18 workshop in SLC

Ed Steele
Norm Warpinski
Dustin Crandall

Tim Baker
Kris Nygaard
Ivan Wong
Mike Nickolaus
Gerry Baker
Mike Paque
Ben Grunewald

Induced Seismicity Workgroup - May 18th IOGCC Salt Lake City Workshop

Workshop Objective

For official Induced Seismicity Workgroup members and advisors ONLY, review the work done to date and prepare for the editing and completion phases of the Induced Seismicity Primer development. The workshop will be focused on understanding the current status of the draft document and the path forward. The meeting will not be an 'edit' session.

The official review and comment period for YOU (the members and advisors of the full workgroup) will be from May 18th - June 15th to provide your input to the editorial committee. The final product will be presented at the September 27-30 joint GWPC/IOGCC Meeting in Oklahoma City. www.gwpc.org/events

Workshop Logistics

Grand America Hotel, 555 South Main Street, Salt Lake City, UT - 8:00am to 11:40am MT, Monday May 18, 2015.

NEW: The Revision 2.0 will NOT be distributed in print on the 18th, BUT rather electronically sent by e-mail to the full workgroup that Monday morning. Please plan to bring your own electronic device to view the draft document during the presentation, if you desire.

We plan to offer a teleconference call-in participation option for this meeting due to the large number of workgroup participants, limited meeting scope and the cost and time involved in traveling. **To join the call, please dial 1 866 777 6650 code 405 516 4974.**

NEW: For workgroup members and advisors who miss the May 18th gathering, we will conduct a 60 minute Revision 2.0 primer rollout webinar, tentatively scheduled for Thursday, May 28th at 8:30am, PT; 9:30am MT, 10:30am CT and 11:30 ET.

Agenda

The Workshop will be focused on understanding the current status of the draft document and the path forward. The meeting will Not be an 'edit' session.

May IOGCC Workshop – Salt Lake City, UT (agenda)

Monday morning (May 18, 2015)

8:00 (MT) – Review of intent and deliverables	Rick Simmers
